Declaration of conformity to EU requirements

product type: cardboard packaging of recycled paper and virgin fibres validity of the declaration: one year from the date of issue.

This declaration is a certificate of compliance of our products with the following guidelines:

- Directive 94/62/EC of the European Parliament and of the Council of 20 December 1994 on packaging and packaging waste,
- Regulation (EC) No 2023/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC,
- Commission Regulation (EC) No. 2023/2006 of 22 December 2006 on Good Manufacturing Practice (GMP) for materials and articles intended to come into contact with food.

We confirm that, in accordance with Directive 94/62EC, during the production of cardboard packaging, we do not use auxiliary agents in the form of Teflon, latex, silicone, formaldehyde, halides, sulphur compounds. Regarding the concentration of heavy metals in packaging, the sum of the concentrations of metals such as lead, cadmium, mercury and chromium does not exceed 100ppm.

During production, no plant protection products, materials of animal origin or other prohibited substances are used.

Cardboard packaging made of recycled paper is a material approved for indirect contact with food. Food should therefore be packed in a barrier material.

Cardboard packaging made of paper with virgin fibres is a packaging material approved for contact with dry, non-greasy food, washed, cleaned or peeled before consumption - according to the ISEGA report.

Cardboard packaging manufactured by Kartony24 Sp. z o.o. complies with the Regulation (EC) No 1935/2004. They do not cause the penetration of substances into food in quantities that could pose a threat to human health and cause changes in the composition of such food or deterioration of its organoleptic characteristics.
